Polyselect® 500 Matt Series
Technical Data Sheet

General Information
Product Name: Polyselect® 500 Matt
Description: This product is a water based polymer colour suspension.
Purpose of Use: This product is used for the treatment of seed and is available in a variety of different colours depending on customer preference.

Product Characteristics:
- Reduction of dust
- Low binding capacity
- Concentrated formulations for ease of handling
- Dilution rate is dependent on specific application and binding capacity required
- High opacity, high coverage quality
- Obvious metallic finish

Physical Data:
- Colour & Effect: Various/ Matt
- Opacity: High
- Binding Capacity: Low/modest
- Density: 0.9-1.3g/cm³ at 20°C
- pH: Not measured

Storability: 12 months when stored in closed containers. Store between 5°C and 25°C.
Safety and Waste: Waste must be disposed of in compliance with regional, national and EC regulations and via a licenced waste processing company. For toxicological properties we refer to the MSDS sheet of this product.
